

ABRAMS INDICTED AS AN EMBEZZLER: TO APPEAR TODAY

Former Hawaiian Trust Secretary May Plead Guilty When Arraigned

COURT WILL BE LENIENT,
MEN ON INSIDE ASSERT

More Evidence Will Be Heard In
Frank L. Hoogs' Case By
The Grand Jury

A true bill was returned by the territorial grand jury yesterday against Louis Abrams, secretary-director of the Hawaiian Trust Company. Abrams is charged with embezzlement of bond No. 130 of the Kauai Railway Company, of the par value of \$1000. This bond is said to be the property of Mrs. Cordelia C. Hartwell. The indictment says the embezzlement took place May 6th.

Replying to a question by Judge Ashford, City Attorney Brown said he was satisfied to allow Abrams to remain at large on the \$5000 bond furnished by Joel C. Cohen and Jules M. Levey last Saturday, when the defendant was arrested. Abrams will be arraigned at nine o'clock tomorrow morning and it is understood he will not fight the case. This impression was obtained in judicial circles from the fact that the court may be lenient.

In view of the fact that Abrams returned to Honolulu from the mainland without a warrant being issued, thereby obviating extradition, coupled with his assistance to the Hawaiian Trust Company in straightening out his accounts, and giving the company security to cover any possible shortage, it is understood that leniency is planned to the defendant when sentence is passed upon him, provided, of course, he pleads guilty.

The grand jury session yesterday was a lengthy one. Twenty of the twenty-three members were present. On the Abrams investigation only two witnesses were called and examined. They were Lem C. Ables and Sanford Davis. The former made an exhaustive investigation of the affairs of Abrams at the trust company. Davis is the clerk in whose name the attachment proceedings against Abrams and Mrs. Abrams were filed in court.

No report was filed in the case of Frank L. Hoogs, the Bank of Hawaii teller whose accounts are alleged to have been irregular, as the result of which he left for the mainland after making good his so-called shortages. Two weeks ago yesterday the grand jury returned a "no bill" in this case, but last week Circuit Judge Ashford again brought the matter to the attention of the jury through a strong special charge.

It is believed the grand jury found no time yesterday to reach the Hoogs matter and that it was continued until the jury meets again next Thursday. A. Lewis Jr. and O. H. Cooke, officials of the bank, were served with subpoenas yesterday to appear before the grand jury, but neither did so. It is inferred that they were advised their presence would not be required until later. The subpoenas order the witnesses to have all data in the alleged embezzlement of bank funds by Frank L. Hoogs.

PACIFIC MAIL BEATEN IN SUIT FOR \$800,000

Federal Judge Hough, in a decision rendered in New York, sustained the contentions made by the government in the admiralty suit for \$800,000 brought by the Pacific Mail Steamship Company, as owner of the steamer Newport, against the Pan-American Railroad Company.

On August 17, 1912, 230 feet of the bulkhead of a pier at Balboa, Canal zone, collapsed, throwing 18,000 tons of earth and two large electric cranes into the water. The Newport, which was alongside the dock, was sunk.

The Pacific Mail Company brought suit, asserting the bulkhead had been improperly constructed and that dredging for the canal work and marine animals had weakened the structure. The Panama railroad, owned by the government, was made defendant. The steamship company asked \$800,000 for damages to and cost of raising the Newport and for loss of cargo and revenue.

Judge Hough awarded the government costs of the suit, in which numerous experts were examined and testimony taken both here and in the canal zone.

The decision upheld the government's contention first offered by Gen. George W. Goethals, that the bulkhead was peculiar to the canal zone section and that there was neither any means of prevention nor method of ascertaining the imminence of a slide.

DUMBA WILL SAIL FOR HOME TUESDAY

Ousted Envoy Expected To Spend
Some Time In Berlin En
Route To Vienna

(Associated Press by Federal Wireless.)
WASHINGTON, October 1.—Doctor Constantin Dumba will sail from New York Tuesday on a ship of the Holland-American Line, the state department having obtained for him from Great Britain a guarantee of safe conduct to Vienna.

The British ambassador, Sir Cecil Spring-Rice, delivered to the state department a written guarantee that the ousted Austrian envoy will be permitted to proceed through the sea lines of the Allies to Rotterdam, whence he will return to Austria-Hungary by way of Germany.

Doctor Dumba is expected to spend some time in Berlin en route home.

TEXT OF DEMAND FOR DUMBA'S RECALL

The following note, demanding the recall of Dr. Constantin Dumba, as ambassador from Austria-Hungary, was sent by Secretary of State Lansing to Ambassador Penfield, at Vienna, and delivered by him to the minister for foreign affairs:

"Mr. Constantin Dumba, the Austro-Hungarian ambassador at Washington, has admitted that he proposed to his government plans to investigate activities in American manufacturing plants engaged in the production of munitions of war. The information reached this government through a copy of a letter of the ambassador to his government. The bearer was an American citizen named Archibald, who was traveling under an American passport. The ambassador has admitted that he employed Archibald to bear official despatches from him to his government."

Wilson Reminds Freeman

"By reason of the admitted purpose and intent of Mr. Dumba to conspire to cripple legitimate industries of the people of the United States and to interrupt their legitimate trade, and by reason of the flagrant violation of diplomatic propriety in employing an American citizen protected by an American passport as a secret bearer of official despatches through the lines of the enemy of Austria-Hungary, the President directs me to inform your excellency that Mr. Dumba is no longer accepted to the government of the United States as the ambassador of his imperial majesty at Washington."

"Believing that the imperial and royal government will realize that the government of the United States has no alternative but to request the recall of Mr. Dumba on account of his improper conduct, the government of the United States expresses its deep regret that this course has become necessary, and assures the imperial and royal government that it sincerely desires to continue the cordial and friendly relations which exist between the United States and Austria-Hungary."

Dumba Away From Washington

Doctor Dumba was at the Austro-Hungarian "summer embassy" at Lenox, Massachusetts, when his letter to Foreign Minister Burian was taken away from Capt. James F. J. Archibald, the American correspondent, in London. To newspaper correspondents at the embassy he admitted receiving the letter, and said in a loose way: "I can't understand how Archibald could have been so stupid."

Doctor Dumba said frankly the proposal was nothing more or less than calling out of the munition making plants the citizens of Austria-Hungary and by establishing a labor employment bureau, and other work for them. This would be a costly undertaking and one for which the sanction of the imperial government was necessary.

Dumba Denies Impropriety

Doctor Dumba denied there was anything in the despatch Archibald carried which was not entirely proper to communicate to his government. There was a memorandum of the number of Hungarians and others of Austrian citizenship employed at various steel works and some other information which was perfectly proper for the ambassador to communicate to his government.

"There was nothing in the despatches which Archibald carried that cannot be satisfactorily explained," said Doctor Dumba. "The proposals regarding embarrassing steel works were nothing more than a very open and perfectly proper method to be taken to bring before our races employed in the big steel works the fact that they were engaged in enterprises which are entirely contrary to their fatherland and that the imperial government would hold the workers in munition plants where contracts are being filled for the allies with being guilty of a serious crime against their own country, something that would be punishable by imprisonment or penal servitude, should they return to their own country."

Thousands of 'Hunkies' Busy

"There are thousands of working men in the big steel industry, natives of Bohemia, Moravia, Carinthia, Galicia, Dalmatia, Croatia, Slavonia, and other peoples of the races from Austria-Hungary, who are uneducated and who do not understand that they are engaged in a war against their own country. In order to bring this before them I have subsidized many newspapers published in the languages and dialects of the division mentioned attempting in this way to bring their felonious occupation to their attention. But this has been difficult."

"In some of the great steel plants of Pennsylvania, these uneducated men of my country are nothing more or less than slaves. They are even working them twelve hours a day and herding them within stockades. It is difficult to get these workers except on a strike and a peaceful walkout of these workmen would be of the greatest advantage to my government as well as an indemnity to themselves."

"It is my duty as the representative

WHAT WILL HEINIE'S TAVERN BE WITHOUT HEINIE TO RUN IT?

R. Heydenreich, known to all Hawaiians as "Heinie," has resigned as manager of Heinie's Tavern, formerly the Wai-Kiki Inn, which Mr. Heydenreich has had renamed and reestablished in public favor until it has become one of the most fashionable resorts of Wai-Kiki. The resignation of Mr. Heydenreich is a sudden one and one that will cause considerable regret with very many.

The reason back of the resignation is that the control of the corporation has recently passed into the hands of David H. Lewis, president of Lovejoy & Co., wholesale liquor dealer, and that with the change of control has arisen conditions respecting the policy and the management of Heinie's Tavern which Mr. Heydenreich feels he cannot, in justice to himself, accept.

"The place bears my name and I have been so intimately associated with the business that I have established that I must either have all to say concerning the policy and management, or I cannot afford to stay on and be known as the manager," said Mr. Heydenreich last night.

Edwin Benner the secretary of the corporation, to whom the resignation has been tendered, has notified Mr. Heydenreich that Henry Roth has been engaged by the directors as business manager, purchasing agent and treasurer, with authority to engage and discharge all help.

Mr. Heydenreich has two or three propositions before him, and he will stay in Honolulu.

PANAMA CHOKED BY FRESH SLIDES

(Associated Press by Federal Wireless.)

WASHINGTON, October 1.—The Panama Canal will not be opened Tuesday. It will not be opened sooner than October 10. Fresh slides at Gold Hill in Panama Cut yesterday enforced the delay. Col. Chester Harding, acting governor of the Canal Zone in the absence of Major General Goethals, has so reported to the war department.

More than sixty ships are waiting at the terminals of the canal at present and it has been estimated that at least a hundred will be waiting by Tuesday. A fleet of 120 vessels probably will be waiting by October 10, the date set for the reopening.

STAVES OFF STRIKE WITH CONCESSIONS

(Associated Press by Federal Wireless.)

PITTSBURGH, October 1.—The Westinghouse Electric Company faced by a general strike of employees, offered them yesterday substantial concessions. The situation is now in the hands of the workmen who will vote on the proposed agreements today for the purpose of accepting or rejecting them.

The company offers a reduction of two hours a week at the same pay with a bonus of six per cent on earned wages payable in progressive quarterly installments. It is estimated that this is equivalent to an increase of ten per cent per annum in wages.

As the 10,000 employees effected number many munition workers the situation is attracting general attention.

FORMER SENATOR LORIMER ON TRIAL AS BANK WRECKER

(Associated Press by Federal Wireless.)
MORRIS, Illinois, September 30.—The trial of William Lorimer and his associates, who are charged with wrecking the La Salle Trust Company of Chicago, began here yesterday on a change of venue from Chicago.

William Lorimer is the former United States Senator, who was ousted after one of the most spectacular political battles ever fought.

DR. J. M. WHITNEY BECOMES AN OCTOGENARIAN TODAY

Dr. J. M. Whitney, father of Circuit Judge Whitney, will celebrate today his eightieth birthday anniversary at his home, Bingham and Punahoa streets. He was born on October 1, 1835, in Marbleboro, Vermont, and arrived in Honolulu on September 9, 1869. Doctor Whitney was the second dentist to practice in the Islands. The first was Doctor Mott-Smith, father of E. A. Mott-Smith, former secretary of Hawaii.

of Austria-Hungary to communicate and make known these facts to the imperial government, and in so doing I am performing the service for which I am sent to this country.

"The despatches or letters carried by Archibald contained nothing more than a proposal that we attempt to call out the working men of our own country from these steel and munition works and provide for them other employment."

HAWAII SHARES IN A MIRACLE BY WIRELESS

Connected Speech, Spoken Five
Thousand Miles Away Is
Heard Distinctly

'ARE YOU ALL WELL?'
EPOCH MARKING PHRASE

Pearl Harbor Officials Receive
Words From Arlington, Virginia,
By Wireless Telephony

Pearl Harbor last night heard by wireless telephony connected speech from Arlington, Virginia, more than 5000 miles away.

Announcement of the feat was made unofficially last night by Rear Admiral Clifford J. Boush who was one of a group of naval officers who listened to the experiment by the invitation of the scientists engaged. The statement revealed the fact that these experiments have been carried on for some time in secrecy.

The marvelous fact of a human voice being distinctly heard a quarter of the way around the world from the place where the speaker stood became an actuality last night. The moment of its accomplishment was a solemn one with those participating, as they appreciated the fact that one of the wildest dreams of the visionary had been made real.

ACROSS CONTINENT AND SEA

It was the dream of the scientists who annihilated space with the telegraph to complete the conquest by an instrument that would permit the sympathetic contact of humans miles apart through the medium of the human voice. This moment had arrived. With the little group of men in one of the buildings at the Pearl Harbor naval station last night an operator in Virginia conversed in the normal tones of his own voice. It took but the slightest stretch of the imagination to clothe it with his personality.

Admiral Boush was invited to be present at the experiment and upon the appointed time the Arlington operator talked with them.

The grave courtesy of the formal phrases were appropriate to the occasion. They heard him first say: "Are you all well?"

COULD NOT REPLY

The instruments here are not complete. The people at Pearl Harbor could hear him, but they could not answer him. The feeling that they could not assure him that he was understood was a poignant one. They regretted that there were even limitations to a miracle that would not have been believed last week.

"Are you all well?" spoke Arlington again. He repeated it several times in deliberate accents.

Then he commenced to count evenly and slowly.

"1, 2, 3, 4, 5, 6, 7, 8," he called, like a schoolboy going over an unusual and startling lesson. He counted this way up to twenty and stopped.

Finally:

"Good night, that's all."

This phrase also was repeated several times.

It was indeed all, but it was sufficient. The feat had not been accomplished before. A significant world's record had been established.

FIRST NEWS YESTERDAY

The first news of the perfection of wireless telephony was published in Honolulu in a despatch in The Advertiser yesterday morning. According to this despatch a conversation between Rear Admiral Boush and the president and held. Theodore Vail, the president, and other officials of the American Telegraph Company were present in the Arlington station at the time the test was made. When its success was announced, it was also stated that on August 27, Arlington had talked with the Panama Canal, but that the fact had been kept secret awaiting the greater accomplishment. Even that talk had been a secret. Arlington, talking with Rear Admiral Boush, was twelve hours later Arlington, which is three thousand miles or so further away than San Francisco, spoke to Honolulu.

The tests are unofficial, partially in the form of a demonstration to the American government. The names of men who are conducting them here have not been made public, but they are said to be from Washington, D. C. The American Telegraph Company is behind the invention.

AUTOIST HITS CYCLIST

Harry Hasegawa, driving automobile 1910, going Waikiki on King street yesterday morning, collided with a Japanese on a bicycle at Alapai and King streets. He says the Japanese turned across his path without giving the warning signal. The Japanese was bruised.

SHAFTER MAN WEDS M'KINLEY'S NIECE

Lieutenant Camp and Congress-
man's Relative Marry Af-
ter Romance Here

News has been received here of the marriage of Lieut. Thomas J. Camp of Fort Shafter, to a niece of Congressman McKinley of Champaign, Illinois. The bride is Miss Mary Mattie. The lieutenant and his bride will return to Honolulu in November.

The marriage is the outcome of a visit to the Islands by the bride. With her sister, Julia, she came with Representative McKinley in the congressional party. By the time she was ready to return, it is said the lieutenant and she were engaged.

The news reached Honolulu through a Clifton, Illinois, paper, which announced the engagement. When Fort Shafter friends of the lieutenant were questioned it was said the marriage had already taken place, but they were unable to tell the date or the place of the marriage.

It is thought, however, the bride is a resident of Clifton and that the marriage has taken place there.

JURY PRONOUNCES SUICIDE VERDICT

A verdict of suicide was returned by the coroner's jury yesterday in the investigation of the death of Bernard Leibman. Leibman's body was found in the Country Club grounds Wednesday afternoon. He was the proprietor of the Leibman's Bazaar, Emma street. Statements before the jury substantiated the reports that loneliness and despondency were the influences that drove him to take his life.

No autopsy was held on the body, it being examined by Dr. A. N. Sinclair and Doctor Ayer, police surgeon, yesterday morning. The probe passed uneventfully through the head, following the course of the wound. There is a bullet hole in the lat. opp. the wound of exit. The weapon used was a 45-caliber revolver.

Under \$2000 bond, Harry Halpern was appointed temporary administrator of Leibman's estate by Judge Whitney yesterday. The petition for the administration of the estate was filed by M. Phillips. The estate is said to be worth \$1500. Halpern was given authority to conduct the business.

MORTGAGEE'S NOTICE OF INTEN- TION TO FORECLOSE AND OF SALE.

In accordance with the provisions of a certain mortgage made by Liana K. Kahanaka, Kahanaka, his wife, of Honolulu, and Island of Maui, Territory of Hawaii, to William R.
